

# DUAL CONTAINMENT HORIZONTAL TANK

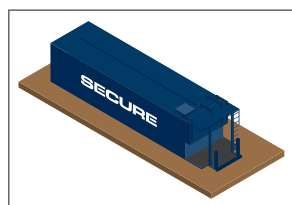

SECURE provides a unique cost saving advantage for fluid storage with our patented Target Tank™, a dual-containment fluid storage tank. The primary purpose of the Target Tank™ is to store fluids on well-sites during drilling, completions or production operations.

SECURE currently has a fleet of over 330 Target Tanks™ available in Western Canada, with service centres in Grande Prairie, Edson, Rocky Mountain House and Leduc. The Target Tank™ is approved by the Alberta Energy Regulator for on-site oil based fluid storage without a berm. In addition, the Target Tank™ meets the Alberta Energy Regulator storage requirements without the need for a dike when drilling or operating within 100m of a waterbody.

DUAL CONTAINMENT

3.35m | 11' high

**Inner Tank**  
Working volume of 60m<sup>3</sup> or 75m<sup>3</sup>.

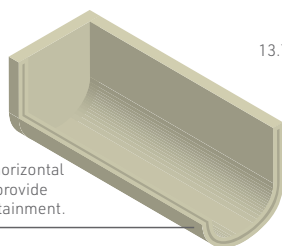

**Interstitial Space**  
This patented feature captures overflow fluid and allows it to be reclaimed and re-inserted back into the inner tank.

**Dual Containment Area**  
Can hold 140% of the inner tank's working volume.

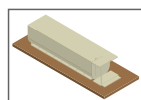

**Inner Tank Floor**  
Ergonomically designed with a slope to ensure 100% of the invert fluid can be captured for removal.

3.2m | 10.5' wide

13.72m | 45' long

Dual walled horizontal tanks do not provide true dual containment.
